

Alex

"Every time, I just go to the POWERtalk club meeting and do the talk, I feel the nervousness, awkwardness and shyness. I observe and learn the tricks from other people, and I become better gradually. More importantly, the skills that I have obtained improve and affect almost every aspect of my life."

"I had such a fear of talking. Since joining POWERtalk I have learned so much and my fear of speaking has lessened. I now also have more confidence within myself."

Minaxi

"I always had an ambition to assist people in becoming confident in all walks of life. Through my years as a member of POWERtalk I've learned more than I ever expected about professional speaking and am now running my own business training women in business to become effective communicators. Joining has been incredibly worthwhile."
